

NEWMAX® 25-Year Warranty Statement

NEWLINK Cabling Systems makes no warranty, express, implied or statutory, other than the foregoing express warranties.

The Customer must submit any warranty claim for a Product before the expiration of the warranty period.

Warranty is Limited to products under normal use, without signs of mechanical abuse, misused, damaged, or removed from the original site of installation. NEWLINK shall not be liable for any kind of incidental or related damage like data lost, time, profits or any other derivate from the lack element. Warranty recognition is at sole NEWLINK appreciation and depends in the fulfillment of the following requirements:

General Requirements:

1. At least one (1) NEWMAX Certified Installer must be involved and is responsible for the design, installation or certification for the Horizontal Cabling.
2. The installation follows all the guidelines established by the TIA/EIA 568-C.2 standard.
3. All the elements used for the segment or link under warranty are NEWLINK's products.
4. Environmental conditions and use corresponds to Commercial Applications.

Specific Requirements:

1. Complete Project data (form W-01)
2. Bill of materials under warranty (form W-02)
3. One diagram or scheme for each different connection installed
4. Testing summary for the 100% of the Links
